City to Receive \$35,000 Grant from History Colorado

GLENWOOD SPRINGS, CO – The City of Glenwood Springs has been awarded a \$35,000 grant from History Colorado to conduct an architectural and historical survey of 34 buildings in the downtown area. This grant will allow the City and property owners to accurately identify, preserve, and restore architecturally and historically unique buildings in downtown Glenwood Springs.

The City will contract with a historical consultant to complete survey work in the areas between 7th and 8th Streets from Cooper to Blake Avenues and both sides of Grand Avenue between 8th and 9th Streets. The area primarily includes commercial and institutional buildings, as well as a few residential structures, that represent distinct architectural styles.

This project will begin in November 2018 and will be managed by the Community Development Department and the Historic Preservation Commission. Once the survey is complete in 2020, the City will host a public open house to review the findings.

History Colorado is the State Historic Preservation Office and offers National and State Registry programs throughout Colorado.
